Avoid Event Scams

Protecting your business from scams

Scamming is a global problem, costing businesses billions each year. Trade and consumer shows are not immune from this trend, as exhibitors at shows can be attractive targets for scammers.

Large events like the EUROCORR 2025 are typical targets of sales groups disguising themselves as working with the host organization to offer various events services to Expo participants and organizations.

Services offered could be such as

- Hotel/accommodation booking links
- Expo furniture booking links
- Contractors for hire
- Advertising
- Registration links, etc.

EUROCORR 2025 does not sell convention attendee information to other companies, nor do we work with third-party organizations on convention sales activities. Scammers do an excellent job of making themselves look like an approved vendor for EUROCORR 2025. Please be vigilant when solicited for services from third parties.

All parties that we recommend in this manual are long-term trusted partners of Liwlig Conference AS.

If you receive an email or phone call like this and have concerns or questions, feel free to contact us at eurocorr@liwlig.no.

Piped Services

The venue acts as the official contractor solely responsible for the supply and connection of natural gas, compressed air, water, and waste services. Please note that water and waste is only available at specific points within the hall. You must have a duct on your stand to have piped services. Therefore, you may require a custom platform floor to hide any service pipes on either your own or a neighbouring stand.

Prayer Room

There isn't an official prayer room onsite, please visit the Registration Desk by the Main Entrance and we can direct you to a suitable space.

Sampling

Exhibitors planning any form of sampling of food/liquid products on their stand at the exhibition must advise this in the [HSE Declaration document](#).

This information is then passed to the Official Caterers.

Exhibitors may give away tasting samples of their products subject to the following conditions:

- Tea, coffee, or soft drinks may not exceed 1.75 fluid ounces (50ml).
- Unwrapped food - bite size portions.
- Individually wrapped items (for off-site consumption only).

Security

The 24hr security provided by the Organisers is designed to prevent unauthorised access to the hall, NOT to secure the contents of your stand. Exhibitors are advised to not leave their stands unattended during build up, breakdown or the open period, and to take particular care with personal items such as mobile telephones and laptop computers.

Please help the organisers with the security of the halls by informing the Organiser's Office immediately of any security issues.

Please note that most hired cabinets have common locks and should NOT be regarded as secure units.

Any incidents of theft must be reported to the Organisers immediately as it will be necessary to complete a security form and report the incident to the police.

Please note that neither the Organisers nor the venue can be held responsible for any loss or damage to stands or exhibits.
